ATTRIBUTE 2

MANAGEMENT AND LEADERSHIP

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 Attribute 2 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 2 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Plan the work and resources needed to enable effective implementation of engineering tasks and projects.	Section 1.2 Section 2.1 & 2.2 Section 3	協助考生將被動的地盤監工轉化為前瞻性的風險與資源規劃。透過災難性設計變更情境，教導考生在突發變更下進行時間影響分析，重新規劃要徑並重組資源。
<u>Requirement 2</u> Manage the planning and organisation of tasks and resources and manage (organise, direct and control), programme or schedule, tasks, and resources.	Section 1.2 Section 1.4 Section 3	提供專業的英文絕殺句，讓考生精準展現對要徑與資源平整的掌控力。示範如何結合合約機制與協作重組，以管控進度嚴重落後的分判商。
<u>Requirement 3</u> Manage teams or technical specialisms and lead or influence teams / technical specialisms, understanding the limits of their skills and knowledge.	Section 1.1 Section 2.1 Section 3	破除年輕工程師無人事權就無法管理的迷思。直接擊中理解他人技能限制的要求，教導考生不依賴職權，而是運用同理心、客觀數據與立體模型，去說服並帶領抗拒新技術的資深管工。
<u>Requirement 4</u> Assist others to meet changing technical and managerial needs and develop others to meet changing technical and managerial needs.	Section 1.4 Section 2.1 Section 3	強制考生擺脫自己動手做的孤狼心態。提供完整劇本，示範如何識別團隊技能差距、製作專屬標準操作程序與視覺化培訓，以及建立回饋機制，帶領團隊適應 DWSS 或 SSSS 等數位轉型需求。
<u>Requirement 5</u> Manage quality processes and contribute to quality improvements and demonstrate continuous quality improvement and promote best practice.	Section 0.1 Section 2.1 & 2.2 Section 3	徹底摒棄低層次的見錯就捉。透過視覺化圖表與 PDCA 循環，教導考生如何利用統計學找出品質缺陷的根本原因，並透過修改施工方案與培訓來永久消除問題。

ATTRIBUTE 3

COMMERCIAL ABILITY

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 Attribute 3 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 3 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Manage, prepare and control costs/budgets of engineering tasks or projects.	Section 0 Section 1.4 Section 3	協助考生擺脫純技術不碰錢的初級思維。指導考生如何將現場計量包裝為基於 SCC 的定義成本核實與 Disallowed Cost 防禦審計，證明其具備嚴謹的日常預算控管能力。
<u>Requirement 2</u> manage, prepare and control costs/budgets of a significant engineering task or project..	Section 0 Section 2.1 Section 3	教授考生在簡報中以數據驅動的 Target Cost Pain/Gain Share 曲線與 CSDP 變更流程圖，視覺化地證實自身如何主導重大工程預算，實現全生命週期降本增效。
<u>Requirement 3</u> Use sound knowledge of statutory and commercial frameworks within their own area of responsibility and have an appreciation of other commercial arrangements.	Section 0 Section 1.3 Section 4	深度整合香港最新法定與合約環境（特別是全面實施的《建設行業付款保障條例》CISPO，第 652 章），確保考生在面試中展現出無懈可擊的法定商務常識，杜絕 Pay-when-paid 等非法合約操作。
<u>Requirement 4</u> And demonstrate sound judgement on statutory, contractual and commercial issues in relation to own area of responsibility..	Section 3 Section 4	這是 Attribute 中最難的要求。攻略透過 5 個極具合約張力的香港地盤真實衝突情境（如專案經理錯誤假設、遲通報、分判商停工威脅等），提供首輪回答與追問反擊雙軌劇本，訓練考生展現專業工程師的大局觀與商務成熟判斷力。

ATTRIBUTE 4

HEALTH, SAFETY AND WELFARE

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 **Attribute 4** 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 4 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Demonstrate a sound knowledge of legislation, hazards, and safe systems of work.	Section 0.1 Section 3	透過提供香港最新法例 (如 Cap. 59, 2023 年 OSH 修訂條例) 與真實情境的結合，確保考生能準確說出法例名稱並應用於安全工作中，而非死背書本條文。
<u>Requirement 2</u> Manage risks.	Section 1.1 Section 2 Section 3	教導考生運用「危險消除層次 (Hierarchy of Control)」與源頭安全設計 (DfS) 概念，從宏觀工程角度辨識及管理風險，避免淪為前線低階的「見錯就捉」。
<u>Requirement 3</u> Manage health, safety, and welfare within their own area of responsibility	Section 1.2 Section 3 Section 4	針對不同背景 (顧問/承建商/業主) 的考生提供專屬的口試包裝術，協助考生將日常有限的權責昇華為積極的當責 (Ownership) 表現，拒絕將安全責任外判。。
<u>Requirement 4</u> Contribute to improvements in health, safety and welfare and demonstrate leadership by promoting good practice and improvements in health, safety, and welfare.	Section 1.3 Section 2.3 Section 3	引導考生如何透過引進新科技 (如 SSSS)、重寫安全標準及帶動團隊文化轉變，展現專業工程師級別的領導力與持續改善思維。

ATTRIBUTE 5

SUSTAINABLE DEVELOPEMENT

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 Attribute 5 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 5 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Understand the principles of sustainable development and apply them in work.	Section 0.1 Section 1.1 Section 1.2	協助考生跳出低階的合規思維，提供可持續發展三大支柱的實務理解。透過顧問、承建商、業主三大角色的戰略包裝，展示如何將宏觀的綠色原則實際應用於日常的工程設計與決策中。
<u>Requirement 2</u> Manage engineering activities that contribute to sustainable development and the United Nations' Sustainable Development Goals (UNSDGs).	Section 2.1 Section 3	裝備考生在商業衝突、合約進度壓力下，依然能專業地將決策精準對應至 UNSDGs，並懂得處理大型基建帶來的負面生態影響。
<u>Requirement 3</u> And take a professional and responsible role in improvements that support sustainable development and reduce resource demand, set in the context of a whole project life cycle.	Section 1.3 Section 4	指導考生利用 CIC 或 CAT 等工具視覺化全生命週期的減碳成果。展現如何透過前瞻性設計及低碳物料實現資源需求縮減。

ATTRIBUTE 6

INTERPERSONAL SKILLS AND COMMUNICATION

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 Attribute 6 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 6 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Communicate well with others at all levels including effective use of English, orally and in writing.	Section 1.1 Section 1.2 Section 1.3 Section 2.3 Section 3 Section 4	提供高階專業英文答辯範本，訓練考生與從前線管工到政府高層進行無障礙對話。
<u>Requirement 2</u> Discuss ideas and plans competently and with confidence.	Section 1.1 Section 1.3 Section 2.1 Section 3	指導考生在面對技術質疑時保持技術自信，有條不紊地論證自身的設計意圖。
<u>Requirement 3</u> Communicate new concepts and ideas to technical and non-technical stakeholders.	Section 1.1 Section 1.3 Section 2.1 Section 31	訓練如何將複雜工程參數轉化為大眾語言，運用日常生活類比化解公眾疑慮並引導決策。
<u>Requirement 4</u> Demonstrate effective personal and social skills.	Section 1.1 Section 1.2 Section 3 Section 4	建立考生的情緒韌性與談判調解手腕，在沒有行政職權的情況下，單憑專業邏輯與社交技巧去影響他人並促成雙贏方案。
<u>Requirement 5</u> Demonstrate awareness of diversity and inclusion.	Section 1.2 Section 2.2 Section 3	提升多元共融的系統性認知，識別並排除職場中潛在的性別與文化隔閡。
<u>Requirement 6</u> Proactively manage diversity and inclusion.	Section 0.1 Section 1.2 Section 2.2 Section 3	提供落實包容性個人防護裝備採購與視覺化安全體系的實戰引導，展現主動管理多元化與包容性的高階領導力。

ATTRIBUTE 7

PROFESSIONAL COMMITMENT

Official Requirement and Guide Mapping Reference

本表將 ICE 指引中關於 Attribute 7 的核心要求逐一拆解，並精確對應至本攻略的各個戰術章節，讓考生在備考時能擁有最清晰的全局導航。

ICE Attribute 7 Requirement	本攻略涵蓋位置	本攻略如何協助考生達成要求
<u>Requirement 1</u> Understand and comply with the ICE Code of Conduct.	Section 0.1 Section 3	深度拆解 2026 年最新守則，並透過真實情境示範如何在極端商業壓力下堅守道德紅線。
<u>Requirement 2</u> Understand the ethical issues that may arise in their role and carry out their responsibilities in an ethical manner.	Section 1 Section 3	針對顧問、承建商及業主三種截然不同的工程角色，提供專屬的道德困境拆局思維與答題神句。
<u>Requirement 3</u> Plan, carry out and record Continuing Professional Development (CPD) necessary to maintain and enhance competence in their own area of practice.	Section 0.1 Section 1.1	教導考生摒棄被動的湊鐘心態，利用投影片將進修與強制主題扣連，展現戰略前瞻性。
<u>Requirement 4</u> Identify the limits of their personal knowledge and skills AND exercise sound holistic independent judgement and accept responsibility.	Section 0.1 Section Section 4	破解工程師英雄主義陷阱，教導考生如何專業地承認能力邊界，並以客觀理據進行獨立工程決策。
<u>Requirement 5</u> Engage with ICE activities.	Section 0.1 Section 2.1	擺脫單純交會費的低階答案，示範如何將參與青年部、推廣 STEM 等活動包裝為實質貢獻與知識傳承。

Section 0: Core Concept & Grading Breakdown

0.1 Decoding 2026 ICE Attribute 2 Core Requirement

在準備專業審查時，許多年輕工程師對 **Attribute 2** 存在致命的認知誤區。他們往往將管理等同於純粹的行政與被動工作，以為按時填寫地盤日誌、幫上司轉發電郵、修改圖紙或發出 RFI 就是管理。然而，在最新修訂的考核指引中，考官真正在意的是你能否在充滿利益衝突與資源匱乏的香港工程實戰中，展現出高瞻遠矚的戰略佈局與影響力。以下我們將會為 **Attribute 2** 的要求逐一分析。

Requirement 1: Plan the work and resources needed to enable effective implementation of engineering tasks and projects.

考官深度解析：香港的初級工程師極容易淪為進度表的奴隸，只懂按主進度表盲目執行。考官要求你必須具備前瞻性的風險預判能力。在工程展開前，你必須預見潛在的地質變數或法定審批的延誤，並據此制定具備緩衝時間的資源調配戰略。

Requirement 2: Manage the planning and organisation of tasks and resources and manage (organise, direct and control), programme or schedule, tasks, and resources.

考官深度解析：這是定生死的關鍵。在香港高壓的工程環境下，當面對要徑上的嚴重延誤時，你不能只做傳聲筒上報給項目經理。你必須展現出掌控大局的能力：運用時間影響分析找出瓶頸，果斷進行資源平整與工序重疊，親自指揮與調控資源以挽回進度。

Requirement 3: Manage teams or technical specialisms and lead or influence teams / technical

Unlock the Full Strategy in the Complete Version

Requirement 4: Assist others to meet changing technical and managerial needs and develop others to meet changing technical and managerial needs.

Unlock the Full Strategy in the Complete Version

Requirement 5: Manage quality processes and contribute to quality improvements and demonstrate continuous quality improvement and promote best practice.

Unlock the Full Strategy in the Complete Version

0.2 Reviewer's Grading Mindset

專業審查面試僅有短短 45 至 60 分鐘，考官絕不會浪費時間詢問教科書上的理論。他們一開始就會將你置於最棘手的現場或設計室衝突情境中，直接考驗你的直覺反應與危機處理邏輯。考官在聆聽你答題時，只會嚴格審視你是否具備專業工程師應有的思維與當責格局。只要你答錯一個字並暴露了初級工程師心態，他們就會毫不猶豫直接判定不合格。

最低及格門檻

1. 具備清晰的英語闡述能力，能以工程鐵三角為基礎，具體描述自己如何進行資源平整或工序重組來化解危機。
2. 遇到突發設計失誤或沉降超標時，第一時間啟動損害控制與風險緩解，提出解決方案而非單純上報。
3. 能提出實際案例，證明自己曾主動傾聽持份者需求，並運用客觀數據引導跨領域團隊解決技術衝突。

自動死亡觸發點

Unlock the Full Strategy in the Complete Version

Section 1: Interview Experience Packing

具備一至兩年經驗的年輕工程師在現實的香港土木工程環境中，往往處於專案的最底層。他們每天處理的刻板工作，如果直接在面試中照本宣科，會顯得極為 **Junior**，完全無法說服考官自己已具備專業工程師的視野與領導力。因此，考生必須精通「口試包裝術」，將微觀的日常任務在概念上作幾何級數的提升，轉化為宏觀的工程管理與技術影響力展現。

以下針對三種不同的工程角色提供專屬策略：

1.1 Consultant (Design Office) Strategy

履歷弱點分析

缺乏地盤前線的實戰經驗，日常極容易淪為對著電腦修改圖紙、執行分析模型的技術畫圖員。

CEng 達標包裝核心

策略的核心必須聚焦於無權限領導與高階工程判斷，將被動的技術修改轉化為跨專業協調與項目全生命週期優化的非技術價值轉化。

Unlock the Full Strategy in the Complete Version

CapEx + OpEx)。」

1.2 Contractor (Site) Strategy

履歷優勢與弱點分析

其巨大優勢在於擁有豐富的前線血肉經驗。然而，其致命弱點在於容易將答案流於與上司周旋、催促分判商等過於粗糙且缺乏理論支撐的地盤日常運作。

CEng 達標包裝核心

Unlock the Full Strategy in the Complete Version

底摒棄了見錯就捉的被動執漏，而是引入 PDCA 循環，從數據中找出震動手法的根本原因，直接重寫施工方案並親自為前線工人舉辦針對性培訓，從系統源頭永久根除了品質缺陷。」

1.3 Client (Developer / Government Department) Strategy

履歷優勢與弱點分析

其履歷優勢在於能接觸專案的整體生命週期與高階商業決策。然而，其致命弱點是極容易被考官視為只懂轉發電郵的行政信差。

CEng 達標包裝核心

Unlock the Full Strategy in the Complete Version

引導雙方剝離立場，從項目的核心營運需求出發進行妥協，最終不僅成功打破僵局，更確保了工程能在不超出核准預算的底線下順利推進，嚴格捍衛了公眾利益。」

1.4 The Master Comparison Table

下表系統性地列出了在香港工程界極為常見的真實情境。透過對比「弱勢考生」與「CEng 級別考生」在面試時的表達差異，揭示了如何利用細節、專業詞彙與影響力動詞來構建極具說服力的回答。

工程情境	弱勢考生回答	CEng 專業回答
<u>Scenario 1</u> 分判商物料供應 延誤	"I asked the sub-contractor to submit the material early, but they were late, so I reported to my PM and issued a warning letter."	"I anticipated the sub-contractor's procurement bottleneck early in the cycle. Rather than merely issuing punitive contractual warnings, I proactively restructured our critical path, influenced their supply chain delivery logic, and implemented a phased material approval strategy with the Consultant to completely mitigate downstream project delays."
<u>Scenario 2</u> 地盤空間與管線 衝突	Unlock the Full Strategy in the Complete Version	
<u>Scenario 3</u> 混凝土質量管控 與改善	"I check the concrete quality every day on site to make sure"	"I implemented a systematic quality control loop, mathematically analyzing"
	Unlock the Full Strategy in the Complete Version	
		pours."

Section 2: Presentation Slide Layouts & Verbal Pitching

在為時 15 分鐘的 **Presentation** 階段，考生必須避免一個極度常見且致命的錯誤：使用大量的純文字列表來流水帳式地描述自己的管理經驗。人類大腦處理視覺資訊的速度遠快於解碼文字，因此考生必須提供具備強大說服力的視覺證據，讓考官在看到投影片的瞬間，大腦便自動將考生與專業工程師的特質連結起來。

以下將詳細拆解如何佈局 **Presentation Material**，並提供完美的口頭演說劇本。

2.1 Visual Evidence Blueprint

CEng 達標包裝核心

針對 **Attribute 2**，我們強烈建議考生在簡報中包含以下四種視覺化圖表，每一種都精確對應 ICE 的核心考核要求：

1. Look-ahead Programme with Resource Leveling

此圖表用於證明考生具備前瞻性的規劃與資源管理能力。考生應展示一幅經過優化的甘特圖，圖中必須利用雙軌設計，清晰標示出原定要徑與挽救後的要徑。必須利用強烈的對比色（例如以紅色標示預計的延誤，以綠色標示考生介入後產生的浮動時間）。這能視覺化地證明考生如何透過工序重疊或資源重置來成功挽回延誤。

Unlock the Full Strategy in the
Complete Version

2.2 Golden Pitching Scripts

在 **Present** 時，考生的語氣必須堅定、自信，帶有掌控大局的管理者氣場。語速不應過快，關鍵字必須加重語氣。以下是完美的兩分鐘英文演說稿，內含強烈的節奏與肢體語言指示。

(節奏與肢體提示：挺直腰板，與主考官保持直接的眼神交流。不要望 **Slide**。以沉穩、具備權威感的語氣發言。)

"To explicitly demonstrate my management and leadership capabilities, I direct your attention to this critical schedule overrun risk we faced during the deep foundation works. When unexpected rockhead variations threatened a catastrophic three-week delay on our critical path, I did not passively monitor the situation, nor did I simply escalate the problem to my Project Manager."

(節奏與肢體提示：停頓 1.5 秒。身體微轉，明確地指向 **Slide** 上的 **Chart**。)

"I took immediate ownership. As you can see in the comparative baseline programme presented here, I executed a rigorous time-impact analysis and fundamentally restructured the resource allocation logic. I led a multi-disciplinary coordination effort, leveraging objective programming data

Unlock the Full Strategy in the
Complete Version

Section 3: The Devil's Questions & Killer Scripts

ICE 考官極少詢問書本上的刻板理論。他們最喜歡使用的戰術是情境壓迫法。考官會故意設定充滿合約張力、進度危機、或涉及高壓衝突的真實地盤情境，將考生逼入絕境，藉此測試考生的危機處理邏輯、商業成熟度與領導手腕。

以下提供 5 個高度複雜、極具真實感的工程情境。每個情境均深入拆解背景設定、考官的陰險動機、核心拆局思維、完美絕殺回答，以及預期的殘酷追問與動態反擊劇本。

3.1 Scenario 1: The Chronically Underperforming Sub-contractor

1. The Scenario Setup

背景設定於啟德發展區一個造價三十億港幣的基礎設施項目。你擔任總承建商的工程師。負責地基工程的關鍵分判商長期表現不達標。他們不斷錯過中期里程碑，無視你發出的正式電郵，現場人手嚴重不足。他們的進度延誤現正嚴重威脅整個主進度表的要徑，若再拖延，將引發高達數千萬的違約金。

2. The Reviewer's Trap

考官在此秘密測試考生是否具備商業與合約成熟度。年輕工程師面對此題，最容易掉入兩個極端的陷阱：第一是過度軟弱，回答打電話求他或者自己親自幫他做，這完全喪失了合約精神與管理者的威信；第二是過度官僚與暴君，回答立刻發警告信並啟動合約扣錢，這種答案在現實中會導致地盤全面停工，顯示考生極度缺乏大局觀，不懂得在 NEC4 合約精神下建立互信合作。

3. The Core Strategy

專業工程師級別的邏輯必須是先診斷，後行動，並以合約機制為堅實後盾。考生必須強調進行根本原因分析，主動提供管理層面的支援，同時嚴格依照合約啟動早期預警以保障專案的商業權益。

4. The Primary Killer Script

"My approach is twofold: collaborative problem-solving backed by strict contract management. First, I would sit down face-to-face with their directors to diagnose their true root constraints, such as cash flow or labor shortages, and help restructure their workfronts. Simultaneously, I would formally issue an Early Warning under the NEC contract to rigorously protect the client's commercial and schedule position."

5. Expected Follow-up Question & Dynamic Pivot Script

Reviewer: "That sounds great in theory. But what if you have the meeting, you offer the help, and they still ignore you, producing absolute zero output the following week? We are actively losing millions of dollars. What is your next move?"

Answer:

mana
their v
clause

6. Con

Section 4: Interview "Instant Fail" Red Flags

在面試的極高壓質詢下，一旦說出錯誤的言詞或表達方法，會瞬間暴露考生思維的狹隘與專業常識的貧瘠，讓考官當場判定不具備專業工程師應有的風範，直接給予考生 **Unsatisfactory**。以下我們將詳細拆解這些致命的雷區，並提供災難模擬與挽救指南。

4.1 Red Flag 1: The Blame Game

1. *Background*

在描述工程延誤、預算超支或設計失誤時，考生如果頻繁推卸責任，將延誤或失誤歸咎於下級分判商或顧問圖紙錯誤，這將顯示考生缺乏承擔責任的領導者風範，且完全喪失了解決複雜問題的大局觀。專業工程師的核心價值正是在於管理這些不完美與變數。

2. *Catastrophic Dialogue Simulation*

Reviewer: "Why was the critical concrete pour on the transfer plate delayed by three weeks?"

Candidate: "It wasn't my fault at all. The architect made a stupid mistake on the rebar detailing, and the sub-contractor was too lazy to mobilize enough workers. I emailed them many times to remind them, but they just ignored me."

Reviewer: (Writes 'FAIL' on Attribute 2 assessment sheet)

"A Chartered Engineer leader solves problems; an administrator just points fingers and forwards emails."

3. *Coach's Rectification Note*

考官聽到這不是我的錯會立刻反感。作為專案的管理者，你的職責就是預見並解決這些失誤。只會發電郵是典型的低階文員思維，無法體現影響力。必須展現出極致的當責精神，證明你如何主動協調各方。

4. *Safe Rephrasing*

"Although the delay originated from a design discrepancy in the architect's detailing, I took immediate ownership to mitigate the downstream impact. I orchestrated an urgent workshop with the design team to resolve the drawing issue on the spot, and simultaneously worked collaboratively with the sub-contractor to optimize their resource allocation, preventing the delay from cascading further into the critical path."

Section 5: Attribute 2 Ultimate Question Bank

考牌不靠臨場發揮，靠精準的系統化準備。面對專業審查的面試質詢，考生需要清晰的管理格局。本章節針對設計、施工與業主代表三大角色，精選核心實實務考題，助你看透考官的提問思維，展現專業工程師應有的決策邏輯。

5.1 Consultant Question Bank

Question 1

Q1: "How do you manage a critical spatial clash between your structural design and the E&M routing when the Architect refuses to change the ceiling height?"

答題思路與應試技巧

1. 拒絕被動妥協、展現跨領域協調手腕。
2. 善用立體模型數據、促成客觀的技術對話。
3. 推動全局最優化、兼顧結構安全與建築美學。

Model Answer Script

"First, I absolutely wouldn't accept a deadlock; I'd immediately organize a cross-disciplinary BIM clash workshop. Using the 3D model, I'd present objective spatial data to the Architect and E&M teams to facilitate a technical dialogue. Ultimately, I would propose a value-engineered alternative that strictly maintains structural integrity and MEP routing, without compromising the ceiling's aesthetic vision."

Question 2

in the Complete Version**

5.2 Contractor Question Bank

Question 1

Q1: "Due to unforeseen ground conditions, your critical path is delayed by 4 weeks. The client refuses an Extension of Time. What is your management plan?"

答題思路與應試技巧

1. 迅速執行時間影響分析、果斷重組施工邏輯。
2. 探討平行作業可行性、盡最大努力追回落後進度。
3. 啟動推定加速索償機制、嚴密記錄開支以保障商業利益。

Model Answer Script

"First, I would perform a rigorous Time Impact Analysis (TIA) and restructure our logic to explore parallel working. If the Client still rigidly refuses an EOT despite our clear contractual entitlement, I would formally notify them that this constitutes constructive acceleration. Ultimately, I will meticulously capture all additional resources under a dedicated cost code to secure our commercial claim."

Question 2

Unlock the Full Strategy in the Complete Version

**..... Total 30 Questions for each Attribute
in the Complete Version**

5.3 Client Question Bank

Question 1

Q1: "The Consultant and the Main Contractor are in a complete deadlock over who is responsible for a 2-month delay. As the Client, how do you manage this dispute?"

答題思路與應試技巧

1. 拒絕充當被動傳聲筒、展現業主代表的戰略調解魄力。
2. 強制剝離情緒對立、要求雙方基於客觀進度紀錄陳述理據。
3. 主導高階商業和解、確保項目順利推進並免於陷入仲裁泥沼。

Model Answer Script

"As the Client, I absolutely cannot allow a commercial deadlock to stall the physical works. I would instantly convene an executive-level resolution meeting, demanding both parties drop their emotional posturing. By forcing them to rely purely on contemporaneous site records and objective programme analysis, I would steer a commercially viable compromise to avoid catastrophic arbitration."
